

# **2900-Policy on Protection of Student Information in Connection With Online Educational Services**

This is the Policy on Protection of Student Information in Connection with Online Educational Services of North County Charter School, Inc., (the “School”). This policy is implemented to comply with the requirements of Rule 6A-1.0955(9), Florida Administrative Code, the Family Educational Rights and Privacy Act (“FERPA”), the Children’s Online Privacy Protection Act (“COPPA”) and other relevant laws.

## **A. Purpose**

This policy is intended to protect the personally identifiable information (“PII”) of students when students are required to use online educational services, including to provide protections against potential misuse of PII, data mining, or targeting for marketing and other commercial purposes.

## **B. Review of Online Educational Services**

All online educational services that students or their parents are required to use as part of school activities must be reviewed and approved as described herein, regardless of whether the online educational service is free, whether use of the online educational service is unique to specific classes and courses, or whether there is a written agreement governing student use. The Principal or their designee must review each online educational service’s terms of service and privacy policy to ensure compliance with state and federal privacy laws, including FERPA, COPPA, 15 U.S.C. §§ 6501-6506, Section 1002.22, Florida Statutes, and all applicable implementing regulations (the “Applicable Laws”). The Principal or designee must determine whether the online educational service provider will collect PII, how it will be used, when and how it will be destroyed, and the terms of re-disclosure, if any.

## **C. Approval of Online Educational Service**

If a teacher or other employee at the School intends to utilize an online educational service as part of a school activity, they must first submit a request to the Principal or their designee for review and approval. No online educational service may be utilized for any school activity unless it has been reviewed and approved. Following the review described above, the Principal or their designee must approve or deny the use of the online educational service. The Principal or designee reserves the right to deny the use of any online educational service for any reason, including if the online educational service is determined to have policies or practices that could lead to the misuse of student PII or violate the Applicable Laws. The Principal or designee may also approve the use of an online educational service subject to parental consent, as described in more detail below. The Principal or designee will maintain documentation related to the approval or denial of all online educational services. Nothing herein is intended to supersede the authority

of the Governing Board to approve the use of an online educational service to the extent such approval is required by any other policy of the School.

#### **D. Parental Notification and Consent**

Parents must be notified in writing if student PII will be collected by an online educational service, including what PII will be collected, how it will be used, when and how it will be destroyed, and the terms of re-disclosure, if any. This notification should be sent to parents at the beginning of the school year, or prior to students utilizing the online educational service if it is implemented after the start of the school year. If during the review process or at any time thereafter it is determined that an online educational service will share or sell student PII for commercial purposes, school personnel shall be strictly prohibited from allowing students to utilize the online educational service in any school activity without having first obtained written parental consent.

#### **E. Notification**

For any online educational service that a student is required to use, the School will provide notice on its website of the PII information that may be collected, how it will be used, when it will be destroyed, and the terms of re-disclosure, if any. This notice will also include a link to the online educational service's terms of service and privacy policy, if publicly available.
